

## Allied Threaded Products B16 Fasteners (ASTM A193)

### Overview

Medium-carbon, molybdenum-vanadium alloy steel designed for high-temperature service beyond B7 limits.

### Specifications

Property	Value
Material	Alloy Steel (Cr-Mo-V)
Tensile Strength	125 ksi min
Max Service Temp	540 °C (1000 °F)
Common Sizes	1/4"-4"
Certifications	ASTM A193 B16 / ASME SA193

### Applications

- Power plants
- Turbines
- Boilers
- Petrochemical furnaces
